Subject: 2015-45-E: I support No New Taxes Solar Policies. Why doesn't SCE&G?

Dear Public Service Commission Public Service Commission,

Back in December, our state exemplified great leadership in becoming the 44th state to institute net metering. Now SCE&G is taking our state a step backwards by proposing to implement a different policy that will subject me and my fellow South Carolinians to increased taxes.

I support a "no new taxes" approach to solar in South Carolina. That means net metering.

Please help SCE&G get back on the right track.

Sincerely,

Mark McLaughlin

Subject: 2015-45-E: SCE&G's Solar Proposal Needs To Be Fixed

Dear Public Service Commission Public Service Commission,

SCE&G's residential latest solar proposal will putsh new taxes on its customers who participate. And the program doesn't let customers use the power they generate in their own home.

South Carolina made significant progress in establishing a competitive and consumer-friendly solar market last year by instituting net energy metering. SCE&G is now backtracking on this progress with an unexpected proposal that would subject me and my neighbors to increased taxes if we choose to adopt solar energy.

Please help SCE&G get back on the right track. South Carolinians want to see "no new taxes" solar policies like net metering.

Sincerely,

Larry Rudginsky
